源码解读

源码解读

1. 登录页面代码位置

```
src\components\layouts\UserLayout.vue
src/views/user/Login.vue
```

2. 首页logo修改

```
src/components/tools/Logo.vue
```

3. 图片预览路径

```
public/index.html
<!-- 全局配置 -->
<script>
  window._CONFIG = {};
  window._CONFIG['imgDomainURL'] = 'http://localhost:8080/jeecg-boot/sys/common/view';
</script>
</script>
</script>
</script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></scr
```

4.首页报表

```
src/views/dashboard/*
src/views/dashboard/Analysis.vue
```

5. 登录退出逻辑

6.首页风格设置

src/defaultSettings.js

7.首页样式自定义 (统一修改样式)

src\assets\less\common.less
