JSelectUserByDep 根据部门选择用户

1.参数配置

参数	类型	必填	说明
modalWidth	Number		弹框宽度 默认1250
disabled	Boolean		是否禁用

2.使用示例

```
<template>
 <a-form :form="form">
    <a-form-item label="用户选择v-decorator" style="width: 500px">
      <j-select-user-by-dep v-decorator="['users']"/>
      {{ getFormFieldValue('users') }}
    </a-form-item>
    <a-form-item label="用户选择v-model" style="width: 500px">
      <j-select-user-by-dep v-model="users" ></j-select-user-by-dep>
      {{ users }}
    </a-form-item>
  </a-form >
</template>
<script>
 import JSelectUserByDep from '@/components/jeecgbiz/JSelectUserByDep'
 export default {
    components: {JSelectUserByDep},
    data() {
      return {
        form: this.$form.createForm(this),
       users:"",
   },
   methods:{
      getFormFieldValue(field){
       return this.form.getFieldValue(field)
      }
   }
 }
</script>
```
